

# 6 Gallon High Capacity Pancake Air Compressor EC914S

Metabo HPT is reinventing the jobsite compressor with THE TANK™. With class leading PSI and weighing only 41lbs, this lightweight compressor packs more pressure into a smaller body. It is engineered with the power to run a framing, roofing, or siding crew, and is versatile enough to run a team of five 18Ga nailers at a time. THE TANK™ offers serious pros a next level compressor, which provides the most demanding framer no downtime while driving nails flush. THE TANK™ has the capacity and PSI to simultaneously run (2) framing nailers or (2) siding nailers or (2) roofing nailers at the same rate of production as a traditional jobsite compressor. Finish crews can even run (3) 15Ga or 16Ga finish nailers or (5) 18Ga brad nailers. At 200 PSI and 4 CFM at 90 PSI, you can get more work done with less weight. THE TANK™ rolls through the toughest jobsites with the power and performance to get the job done!

DURABILITY FIRST

### FEATURES

- **MORE PRESSURE:** At 200 PSI, this compressor offers 25% greater PSI than a basic pancake compressor\*
- **30% MORE AIR FLOW:** 4 CFM at 90 PSI allows for multiple large body nailers to be used on a single compressor
- **VERSATILITY:** Simultaneously runs 2 framing nailers or 2 roofing nailers or 2 siding nailers or 3 finish nailers or 5 brad nailers
- **PRODUCTIVITY:** Consistently drives nails flush with no delay
- **LIGHTWEIGHT:** At only 41 lbs, it is 22% lighter compared to a traditional twin-stack compressor\*\*
- **CAPACITY:** 6-gallon tank provides all the air to run a crew
- **DURABLE:** All-metal handle outlasts the harshest demands of the jobsite
- **LOW MAINTENANCE:** Oil-free design for essentially no maintenance
- **AWARDS:** 2014-2019 Pro Preferred Brand for pneumatic nailers by Builder & Developer Magazine

### SPECIFICATIONS

THE TANK 6-GAL COMPRESSOR			
EC914S			
Power Supply			120V/60Hz
Rated Amps	(A)		13.5
Motor Type			Industrial
Running Horsepower	(HP)		1.3 HP
Max Pressure		(PSI)	200
Air Delivery	@40 PSI	(CFM)	5.1
	@90 PSI	(CFM)	4.0
Tank Type			Pancake
Tank Capacity			6 Gallons
Pressure Switch	ON	(PSI)	170
	OFF	(PSI)	200
Tank Pressure Gauge			Yes
Regulated Pressure Gauge			Yes
Coupling Socket			1/4" x 2
Portability			Hand Carry
Noise Level	(dB)		79
Weight	lbs		41
